04/01/17 PREEMPTION

04/08/17 **48 HOURS: "Death and the Dentist"** – an updated rebroadcast of "Death and the Dentist" (OAD: 09/17/16), which includes an exclusive interview with Kingston, New York dentist Gilberto Nunez, who faces second-degree murder charges for the death of his lover's husband, Thomas Kolman, the case against him, and the secrets exposed during the homicide investigation. In 2011, Thomas Kolman was found dead by his wife, Linda, in his car outside of a gym he frequented. At first, no foul play was suspected; Kolman suffered from sleep apnea and was slightly obese. However, the medical examiner found an unusual drug in Tom's system -- midazolam -- a sedative sometimes used by those in the dental profession, and the death was ruled a homicide. Further investigation revealed that his best friend, Dr. Gilberto Nunez, was having an affair with his wife, Linda Kolman. Nunez told police Kolman knew about it and was fine with it. There were hundreds of text messages between all the parties, including some where Nunez impersonated other people. Even the name of the CIA was dragged into the case through a fake ID. It took four years for prosecutors to charge Nunez with second-degree murder and forgery. Nunez hired two top New York City defense attorneys who presented a very different scenario, saying Tom Kolman died of natural causes, insisting this was a murder case without a murder. The verdict: Nunez was acquitted of the murder charges and found guilty on the forgery charges. The Kolman family was unhappy with the verdict. Some former jurors were interviewed and were adamant that there were too many unanswered questions to prove the murder charges. **Update for the 04/08/17 rebroadcast: In 2017, Nunez was sentenced for the forgery, insurance fraud and perjury convictions. He will spend the next two to seven years in prison. The Kolman family finds some comfort in knowing that he is behind bars.** On-screen text graphic: Gilberto Nunez is expected to be sentenced on his forgery related charges later this year. **On-screen text graphic for the 04/08/17 rebroadcast:** As part of Gilberto Nunez's sentence, he was ordered to have no communication with Linda Kolman. A New York State review board is deciding if Nunez's dental license will be revoked. Interviewed: Gilberto Nunez; Detectives Michael Thomas and Brian Reavy; Lieutenant Kyle Berardi; Michele Kolman-Weber (former wife); Jillian Kolman (daughter); Marie Kolman and Tom Kolman, Senior (parents); Mary Ellen McManus (dental hygienist); Murray Weiss (criminal justice editor DNAinfo/48 HOURS consultant); Grant Fredricks (forensic video expert); Yameil Nunez (Gilberto Nunez' new wife); Gerald Shargel and Evan Lipton (criminal defense attorneys); Frances Kwak and Michael Dougherty (jurors). 04/15/17 **48 HOURS: "The DNA of a Killer"** – a report on the 1996 death of Angie Dodge; the unusual circumstances in which Michael Usry, Jr., a filmmaker and producer of a short film about a brutal death, became a suspect in the case; and the approach police took to try to find a DNA match through a public database that had been bought by Ancestry.com. In 1996, Idaho Falls teenager Angie Dodge was brutally murdered. The killer left behind semen which police tested against the DNA of men she knew, including Christopher Tapp. His DNA did not match, but after 28 hours of interrogation over 23 days, Tapp confessed to being there when she was killed, and stated that one of the participants was a man named Mike. Christopher Tapp was convicted of killing Dodge, but the case remained open because Tapp's DNA did not match the man whose semen was left at the crime scene. In 2014, police searched a public database that had been bought by Ancestry.com, hoping to find a match through familial searching. The search resulted in a partial match. Police got Ancestry.com to reveal the name of the anonymous man behind the sample - Michael Usry, Sr. - which ultimately led to his son, Michael Usry, Jr. Despite the close DNA match and the matching first name, Usry Jr. had nothing to do with the death and was officially cleared. His story raised serious questions about what happens when police use publicly available DNA databases to solve cases -- and what happens when an innocent man is tagged as a suspect. Michael Usry decided to make a documentary and was joined by Angie's mother, Carol Dodge, who had an agenda of her own: to find the killer. Their search has led them to believe that Christopher Tapp was innocent. Their combined efforts led to a review of the case and Tapp being able to accept a plea deal, which led to his release from prison after twenty years. **On-screen text graphic:** Carol Dodge met with detectives this week and continues to push them to find her daughter's killer. Chris Tapp says he has many job offers since his release last month and is happy to be weighing his options. Interviewed: Michael Usry, Jr.; Carol Dodge; Christopher Tapp; Mark McBride (Idaho Falls, Idaho Chief of Police); Greg Hampikian (DNA expert); Erin Murphy (New York University Law Professor); Patrick McKenna (Detective); Michael Heavy (retired superior court judge); John Thomas (Tapp's appellate attorney). **48 HOURS: "The Golden State Killer"** – a report about true-crime writer Michelle McNamara's relentless search for answers, and the quest to find the elusive so-called "Golden State Killer", who terrorized Californians by committing 50 rapes and a dozen murders between 1978-1986. McNamara died in 2016. Her widower, comedian Patton Oswalt, discusses his late wife's untimely death which occurred during her investigation and those who are carrying on her work by finishing the book she was writing about the case. McNamara was fascinated with true crime and her on-line quest led her to a serial killer she had really never heard of: the EARS (East Area Rapist Surveillance) Killer, whom she rebranded as the "Golden State Killer", and pursued clues which she hoped to compile into a book. Her obsession with the case took a toll on her health, and her untimely death devastated Oswalt. Now others are hoping to finish the work she started – by publishing the book and finding the killer. The killer was a man who stalked his victims, blindfolded them, and raped and/or murdered them in Northern California. The rapes ultimately stopped, but after a seven-year hiatus, began again in Southern California. In 2016, the FBI used the 40<sup>th</sup> anniversary to announce the renewed investigation and a reward for the killer. **On-screen text graphic:** Michelle McNamara's book is expected to be published in early 2018. The FBI urges anyone with information on the Golden State Killer to call 1-800-CALL-FBI, or go to [tips.fbi.gov](https://tips.fbi.gov). **48 HOURS: NCIS: "The Double Cross" (10:00 – 11:00p)** – the first in a six-part series taking viewers inside cases handled by the Naval Criminal Investigative Service (NCIS), which has just celebrated its 50<sup>th</sup> anniversary and is responsible for investigating felony crimes, preventing terrorism and protecting secrets for the Marine Corps and the Navy. This episode focuses on the 1996 deaths of two Navy petty officers, Elise Makdessi and Quincy Brown, who were found dead in a Virginia Beach, Virginia apartment. Eddie Makdessi told investigators that the couple returned home and were attacked by an intruder, who sexually assaulted and stabbed his wife to death. Eddie was able to get a gun and shoot the man, who turned out to be Quincy Brown, his wife's co-worker. A case was opened, then a videotape was discovered in which Elise Makdessi claimed to have been sexually assaulted and raped, naming Quincy Brown as an assailant. A second investigation was launched. Certain facts in both investigations did not add up, leading investigators to take a closer look at the husband. Makdessi stopped talking. There was also no corroborative evidence of sexual assault, which led investigators to consider him a suspect who had manipulated Elise and had concocted a scheme to get rich, cashing in more than \$700,000 in insurance policies after her death. He was indicted, but fled the country. In 2002, a Virginia television reported who had once been in communication with Makdessi, located him in Russia. After he traveled to do an interview, Russian authorities confiscated his film and Eddie's passport. Makdessi was able to get it back and was escorted back by a U.S. Marshall to stand trial. He was found guilty on two charges of murder. Interviewed: Brian Ricardo (former NCIS Special agent); Dennis Santos (NCIS Captain, Virginia Beach, retired); Mike Mather (television reporter); Nancy Simpson (supervisor and friend of Elise Makdessi); Beth Dunton (forensic specialist supervisor); Dan Rice (NCIS Special agent, retired); Ross Gardner (Special Agent, forensic examiner); Catherine Dodson (prosecutor, Commonwealth of Virginia) (Narrator: Rocky Carroll (from the CBS-TV series NCIS) - Producer: Susan Mallie)

04/29/17

**48 HOURS: "The Family" (9:00-10:00p) and "The Family...A Cult Revealed" (10:00-11:00p)** – a two-part report on "The Family," a cult that began in Australia and later moved to New York. Includes allegations of stolen children, drugs, and abuse and a portrait of its leader, Anne Hamilton-Byrne, who claimed to be the second coming of Christ. This is the story of a woman's attempt to build a perfect race through a collection of 28 children, who each had their hair bleached, were home-schooled on an isolated property, and were injected with LSD as part of an initiation ritual. The children of the cult, now adults, tell their harrowing stories of the treatment they received from loyal cult members, referred to as "Aunties". It is also the story of Detective Lex De Man who spent years trying to stop Anne Hamilton-Byrne, finally succeeding with the help of the FBI in the United States. Includes: (1) **"The Family"** – Yoga teacher Anne Hamilton-Byrne formed The Family in 1963. It was an apocalyptic cult with about 500 followers and more than 28 children. Some members willingly gave their children to her, others came from unwed mothers who were tricked into signing over their newborns to be raised by the cult, helped by members of The Family who were doctors and nurses at a nearby hospital. Many had no idea who their real parents were. In 1977, after years of rumors and speculation, police stormed a rural property and rescued seven children. The "Aunties" only faced charges of welfare fraud, while Anne Hamilton-Byrne and her husband Bill Byrne fled the country and for years, their whereabouts were unknown to the authorities in Australia. (2) **"The Family...A Cult Revealed"** – finding Anne Hamilton-Byrne became the obsession of Melbourne detective Lex de Man. He received a break in the case when Anne called one of the cult children from the United States. In New York, he enlisted the help of FBI, who would track her down to a farmhouse in the Catskills, and de Man personally escorted the couple back to Australia. Prosecutors ended up charging Hamilton-Byrne with conspiracy to make a false statement. Neither she nor her husband would spend one day in prison; they would each pay a fine of \$5000. Authorities decided not to pursue any other charges. A couple of a dozen true believers stayed loyal. Hamilton-Byrne disappeared from the public until 2009, when she resurfaced on 60 MINUTES Australia where she denied any abuse. Anne Hamilton-Byrne is 95-years-old and is living in a nursing home in Melbourne suffering from dementia. **On-screen text graphic:** True believer Michael Stevenson-Helmer visits Anne every day.
